**Commentary:** Alas, alas! There have been major changes in rates charged by the United States Postal Service. The changed for domestic rates are modest, except for registered mail, where the rates have increased by approximately 20%. As a result, for domestic orders, our shipping charge will now be \$4 for all orders up to \$500 and \$8 for all orders over \$500.

Foreign rates have charged dramatically, in part to reflect the fall of the dollar vis-à-vis many other currencies, such as the Euro now averaging about \$1.35 and the British pound, fluctuating around the level of \$2.00. More depressingly, the wonderful Global Priority Mail has been scrapped, replaced by the same Priority Mail we use domestically, but with international rates of \$9 to Mexico and Canada, \$11 to everywhere else, so long as the contents can fit in the standard Priority envelope. Also, the priority envelopes no longer have the barcode found on the old Global Priority envelopes, and are thus regarded everywhere as ordinary first class mail. And the basic registry fee for overseas mail has risen from \$7.90 to \$10.15, a huge rise in US dollars but little change in euros or sterling.

At present, I am avidly working on the 3rd edition of the *Checklist of Islamic Coins*, which will be published as a hardcover version of between 400 and 500 pages, including well over 1000 illustrated coins. The new book will be more a catalog than a simple "checklist", and will be three or four times heavier than the second edition. The current text is almost 50% greater than the 2nd edition and seems to be growing every week. Naturally, I remain open to any and all comments and suggestions, though of course I cannot guarantee that I will use them all. But please feel free to contact me, by email or phone or old fashioned snail-mail.

Members of the ANA (American Numismatic Association): If you are voting for governors in the ANA, both Joe and I endorse the following six candidates:

Chester L. Krause	Clifford Mishler
Edward C. Rochette	Joseph E. Boling
Radford Stearns	Walter A. Ostromecki

Since you get to vote for seven candidates, I would suggest either John R. Eschbach or Anthony Tumonis for the seventh. Why is this important? The ANA has migrated from collector orientation to investment orientation, from coins of all price levels to expensive slabbed coins, from public board meetings to many secretive private board meetings. This is obvious by viewing the advertising in *The Numismatist*. The candidates mentioned here are anxious to return the organization towards all its members, whereas their opponents are aiming in the opposite direction. I have been a member of the ANA since 1962 and intend to remain a member, even should the group fail to return to its roots.
