39408. **Album, Stephen and Goodwin, Tony**, Sylloge of Islamic Coins in the Ashmolean Museum: Volume 9, Iran after the Mongol Invasion. 2001. 240 pages, including 89 plates, with descriptive text, hardcover with dust jacket. This volume contains nearly 1800 coins of the 13th-19th centuries from Iran, Afghanistan and neighbouring lands. It covers the following dynasties: Ikhaniid, Timurid, Qara Quyunlu, Aq Quyunlu, Safavid, Qaja, Durrani and Barakzay. The introduction offers not only a guide to the catalogue, but also sets out an agenda for the study of the monetary history of the period. Late medieval Iranian coinage offers the historian the earliest opportunity to examine the relationship between coinage issue in the Islamic world and the monetary policies, which underlie them. The collections which contribute to this volume are all housed in the Heberden coin room, Ashmolean Museum. The most important of these is undoubtedly that part of the Thorburn collection which was acquired by the Coin Room in 1966. The material is arranged as in SICA volume 10 (Arabia and East Africa), that is, by mint and chronologically within mints. \$88
39407. **Album, Stephen and Goodwin, Tony**, Sylloge of Islamic Coins in the Ashmolean Museum: Volume 1, The Pre-Reform Coinage of the Early Islamic Period; Oxford, 2002, 121 pgs, 47 plates, each with descriptive text, hardcover with dust jacket. This volume contains just under 750 coins of the pre-reform period from all parts of the Islamic world. It is particularly strong in the Arab-Sasaniid silver and Arab-Byzantine gold and copper issues. The two introductory sections represent significant contributions in the field. They offer the first comprehensive analysis of the monetary history of the early Islamic period since Walker's pioneering catalogues of the British Museum collections and are intended to serve as an introduction for the non-specialist as well as the numismatist. The material is arranged by mint and chronologically within mints. \$97

Allan**, The Historical Cash Coins of Vietnam Part I: Official and Semi-Official Coins, Singapore, 2004, 407 pages, hardcover; comprehensive catalog of official and attributable coins in historical context with excellent illustrations, in English but usable by Vietnamese and Chinese readers. Both rubbings and knockout color photos on art paper with descriptions to clarify all variety distinctions. Numerous charts, maps and indexes. 39360. **Cribb, Joe**, Magic Coins of Java, Bali, and the Malay Peninsula, British Museum Press, London, 1999, 288 pages, 80 plates, hardcover. Covering Southeast Asian coinage of the 13th to 20th Centuries, this book describes some outstanding specimens featuring Islamic designs and inscriptions. This work presents the British Museum's collection of 165 coin-shaped charms, most of which were collected in Java by Sir Edmund Raffles. Comparisons are also made with 885 specimens from other collections worldwide. \$85

Commentary: Last month, our local bank, Sonoma National, was bought out by a regional bank, Sterling Savings Bank. They no longer notify us immediately by phone that a payment has arrived by wire into our account. We only learn about it from the monthly statement, often without the name of the sender. So please please notify us by email, phone or fax, as quickly as possible after sending the wire, so we can credit the payment on your account. Also, please add \$20 to the wire payment to cover our bank charges.

I (Joe) will be going to China for two weeks again this year after the Hong Kong Coin Show and traveling to Macao, Zhuhai, Chengdu, Jiuzhaigou National Nature Reserve, Lanzhou and Xi'an. Once again I will write a travel log after I return. I am curious to see how active the market for coins is in Chengdu and Lanzhou in particular. There are numerous unpublished cast warlord issues produced in the 1920-30's, mostly from Gansu Province and I hope to find some of these while in Lanzhou.
