*This is an historically important piece, as it confirms the meaninglessness of the mint names. The MBI specimen bears the mint name ΘHO for Theoupolis (Antioch in Syria) and this piece refers either to a mint in northeastern Anatolia, 1000 miles away, or the island of Cyprus, several hundred miles distant. Both pieces were struck with same obverse die!*

*Overstruck on undetermined host, with a few bits visible on the obverse; struck on an oblong planchet.*

157. **ARAB-BYZANTINE: Three Standing Figures**, ca. 650s-660s, AE fals (4.61g), A-3501A, mint & date completely meaningless, officina Γ, cross above the capital M, Fine \$90 - 110

209. **ARAB-BYZANTINE: Justin & Sophia type**, late 7th century, AE follis (8.91g), Baysan, blundered date, A-3509.1, ABQ—, two seated figures derived from Justin & Sophia, large star between them, blundered Greek text / capital M, cross above, ANNO left, blundered year right, NIKO in exergue with retrograde N, officina A, VF, **RR** \$300 - 400

*Greek text is probably heavily abbreviated and blundered version of Skythopolis. Struck either at that mint or elsewhere, legally or illicitly.*

210. **ARAB-BYZANTINE: Justin & Sophia type**, late 7th century, AE follis (5.87g), Gerasa, "year 12", A-3509.2, ABQ-C9 (same dies), first two letters ΓΕ of mint name in Greek at right, without Arabic *tayyib* / capital M, NIKO below (Nikomedia), cross above, crude star above the date, trace of porosity, mainly on reverse, VF, **RR** \$500 - 600

*The light weight and spelling peculiarities of this type (e.g., ANO instead of ANNO) suggest a late issue, circa 690s to the early 700s.*

211. **ARAB-BYZANTINE: Justin & Sophia type**, late 7th century, AE follis (9.54g), Abila, undated, A-3509.3, ABQ-6var, two figures derived from Justin & Sophia, without Arabic *tayyib* countermark / capital M, cross above, officina A, ANNO left and uncertain XOY to right, NIKA below, pleasing F-VF, **RRR** \$1,000 - 1,200

*On the obverse no text left and mint name, apparently ABHΛ within lazy B, with two symbols before. This is probably a blundered symbol, rather than one or two Greek letters. This type was assigned by ABQ to Gerasa (Jerash) and to Diospolis by others (reading the first 2 symbols as ΔΙ), but neither of these make sense, now that several specimens are known. ABQ refers to the article on the Skythopolis and related coins that appears in the Israel Numismatic Society Journal #13, composed by Amitai-Priess, Berman & Qedar.*

212. **ARAB-BYZANTINE: Justin & Sophia type**, late 7th century, AE follis (9.08g), Gerasa, "year 12", A-3509G, ABQ-C2 (same dies), mint name in Greek at right, Arabic *tayyib* countermarked below / capital M, retrograde pseudo-mint name NIKO below (Nikomedia), cross above, 6-point star above the date, F-VF, **RR** \$600 - 800

213. **ARAB-BYZANTINE: Justin & Sophia type**, ca. 680s, AE fals (3.78g), "year 17", A-3509var, seated figures based on Justin & Sophia, large cross between their heads, globus cruciger to right / capital M, star & upward crescent above 2 additional crosses left & right, year fairly clear, Greek Θ and M below, with carefully engraved cross pattée in between, nice patina, choice VF, **RRR** \$400 - 500

*The cross appears 6 times on obverse and 4 times on reverse, surely an indication that this was likely a non-Arab issue by an unidentified Christian group somewhere in greater Syria. However, the cross had not yet been abandoned by the Arabs, as is clear from the various Arab-Byzantine types, such as the 3 figures issues of Tabariya, with 6 crosses on the obverse, emulating their prototype of Heraclius. Evidently, the Arab administration did not care if local suppliers retained one or more crosses on their copper coins, amongst what was still a largely Christian population, prior to the monetary reform of 'Abd al-Malik in 696 (AH77).*

214. **ARAB-BYZANTINE: Justin & Sophia type**, late 7th century, AE ½ follis (4.71g), Baysan, ND, A-3510, ABQ-B3 (same obverse die), two seated figures derived from Justin & Sophia, no legends / capital K, crescent above, mint name in Arabic to left, lazy I to right, saltire below, lovely green patina, VF, **RRR** \$500 - 600

215. **ARAB-BYZANTINE: Justin & Sophia type**, late 7th century, AE ½ follis (4.02g), Baysan, ND, A-3510, ABQ-B3, two seated figures derived from Justin & Sophia, no legends / capital K, star above, mint name in Arabic to left, lazy I to right, saltire below, minor weakness, deep green patina, about VF, **RRR** \$400 - 600

*Foss has suggested a date range of 647-658 but in my opinion, the 660s seem the most likely. In any case, this would be the earliest Islamic coin to bear the name Muhammad in Arabic, which first appears on silver drachms in AH66 (type A-20 of 'Abd al-Malik b. 'Abd Allah, struck in Bishapur, AH66 = AD 685/686). This is most attractive example of this rare type we have seen.*

*The precise identification of Halal Shah is uncertain. Based on his research of local history, Mitchiner has suggested that he is the Arakanese governor of Chittagong known as Maha Pyinnya Kyaw. 972. **SANDWIP ISLAND: Sultan Dilawar**, 1617-1665, AR ¼ tanka (2.53g), ND, Mitch-LW.350/351, G-CG12, VF, RRRR \$1,000 - 1,200

*Sandwip Island lies a few miles off the coast from Chittagong. Sultan Dilawar was appointed governor of the island by the Arakanese in 1617 and was ultimately captured, at the age of about 80 years, by the Mughal forces of Aurangzeb in 1665, after which he was imprisoned in Dhaka (Jahangirnagar), where he died soon afterwards. This is the only coin that is known to have been produced for the little island of Sandwip. Mitchiner knew of only one specimen of type LW.350 in the British Museum and one of LW.351 in an unspecified collection in Calcutta.*

973. **CHITTAGONG: João III**, 1521-1557, AR tanka (9.96g), Unpublished, in the name of João III (John III), IOHANES : III : R : P, Portuguese arms in the center, with a small crescent left & right / IO(H)...ES III R P ET AL, crowned V C monogram in center, M left and A right, imitating the coinage of the Portuguese colony of Malacca in the Malay Peninsula, 1 banker's mark, VF, RRRR \$800 - 1,000

*In 1533, Ghiyath al-Din Mahmud, the sultan of Bengal, allowed the Portuguese to establish a colony and custom house at Chittagong. Although Portuguese political control was quickly abandoned, it remained an important Portuguese trade center for more than a century, and was known to the Portuguese as Porto Grande. The fabric and planchet appearance is typical of the coinage of Chittagong and its environs, and might have been struck at Chittagong by the Portuguese during their period of at least partial control over the city circa 1533-1539, or by any one of the other local authorities within the surrounding regions. The accuracy of the Latin inscriptions suggests that the dies must have been produced by a European engraver, almost certainly Portuguese. This piece is said to have been found together with a group of Bengali and Tripura silver tankas, probably not too far from Chittagong itself. We have been unable to find any published reference to this remarkable coin.*

*Shah Jahan was deposed on 17 Ramadan AH1068 (8 June 1658), and kept in prison thereafter, until his death eight years later. Three of his sons claimed the throne upon his deposition, Murad Bakhsh, who was deposed and arrested a few weeks later, Shah Shuja, who held out for a few months and eventually joined the 3rd brother, Aurangzeb, who ascended the throne 21 July 1658. Because the governors at Junagadh refused to recognize Aurangzeb until late in AH1071, the local mint apparently continued to strike coins in the name of Shah Jahan until some point in 1071, as evidenced by this piece. From later in 1071 onwards, rupees were struck at Junagadh in the name of Aurangzeb, but retained a special local design until the 31st year of Aurangzeb's reign, after which they adopted the standard designs of Aurangzeb's coinage.*

*The advance of the Maratha forces appears to have reached the edge of Multan shortly before the end of AH1172, though their actual occupation of the city did not occur until 11 Rabi' I 1173, some 10 weeks after the end of 1172. Since the style of the Maratha issues in the name of the Mughal Alamgir II and his controversial successor Shah Jahan III are stylistically so different from the Durrani issues of Multan at the same period, it can be assumed that they were produced outside the official mint of Multan, perhaps with the Maratha forces outside the city walls. KM and Wiggins list only AH1173 in the name of Alamgir II as a Maratha issue. It is, of course, always possible that the coin was minted in 1173 but the die-sinker inadvertently engraved 1172 instead of 1173, a simple typo. See our auction 16, lot 1084, for the Maratha issue in the name of Shah Jahan III.*

*This is the said example quoted in the Pridmore sale in the The Uniform Coinage of India book. Although listed by Stevens & Weir as an early restrike in this catalog, this appears to be an original proof striking. The book mentions that restrikes were made in 1919 and this coin came from group lots out of the Pridmore sale of proof one anna coins dated 1912-1929. Each has identical striking quality, luster and general appearance. It seems unlikely they are restrikes, as the 1929 example (lot 1781) has the same appearance as the 1912, and the restrikes were made in 1919, not during or shortly after 1929. Furthermore, they have no resemblance at all to later restrikes. (See also lots 1777-1780).*

*The 1911 accession to the throne of Emperor George V led to the famous "pig rupee". On the coin, the King appeared wearing the chain of the Most Eminent Order of the Indian Empire. Because of poor engraving, the elephant looked very much like a pig. The Muslim population was enraged and the image had to be quickly redesigned. (See also lot 1792).*

## World Coins

1989. **LAOS: LUANG PRABANG:** LOT of 3 odd & curious monies, Kingdom of Luang Prabang, silver Lat Money ("Tiger-Tongue Money"), 18th to 19th centuries, good quality silver, weighing approximately 70g (114 mm length), 115g (124 mm) and 120g (126 mm), **lot of 3 pieces** \$250 - 350

*The capital of Lanchang was moved south to Vientiane circa 1530, and Mitchiner dates the first Tiger Tongues to this period. These are of the same shape as Leech money with rows of rough bumps on the upper surface and sometimes stamped symbols across the center. After 1707 the kingdom split into Luang Prabang and Vientiane, and tiger tongues of much debased silver no doubt continued to be made well into the 19th century.*

*A new publication by Howard Daniel was released in 2014, with a section that describes Lat Money in great detail. He suggests that the commonly used term "Tiger-Tongue" is an incorrect description. They were likely modeled after Crocodiles, which were the dominant creature in most Lao rivers.*

*The Peace of Westphalia was officially signed in 1648, ending the Thirty Years War. However, by 1650, negotiations were still ongoing in an attempt to resolve some details of the treaty's terms. In particular, the issues of war reparations and prisoner exchanges were unresolved. Nürnberg was the site of these negotiations, which were commemorated in a series of coins. The smaller versions of these types are more commonly encountered; this 1/2 thaler size (Halbtalergewicht) is quite scarce.*

2437. **Diler, Ömer,** Ilkhans: Coinage of the Persian Mongols, Istanbul, 2006, 655 pages, 12 plates, in English, softcover, slightly worn at the corner, perfect shape internally, the most important general research source for the Ilkhan coinage, divided into two basic sections. First, a list of all known mints for the Ilkhans, with reported dates for each mint, accompanied by one or two references for each date. Second, a list of all separate types known to the author, each one with a well-executed drawing and a list of recorded mints for each type and the dates for each mint, organized by ruler, with a simple type numbering system, from 1 to 838. There are useful indices and bibliography at the end. \$180 - 220

*Sadly, Ömer Diler passed away shortly before the final editing of this work was completed. His widow Emine Nur Diler, assisted by two excellent numismatists, Garo Kürkman & J.C. Hinrichs, completed the preparation and submitted the manuscript to the printer. The death of Ömer Diler has been a devastating loss to the numismatic community of Turkey and the world.*

*Eduard Kann (1880-1962) was more than just a coin collector. He was an official of the Chinese Government, who ran the Chinese monetary system for decades. Kann managed to get out of China just before the 1949 revolution. He then lived in Hong Kong and Los Angeles. This classic work is essentially a catalog of his own coin collection, including coins he collected while working as a banker and as an official of the Chinese Government in Shanghai. When, after his death, his coin collection was sold in several auctions, they fetched then record prices. The New York Times for May 23, 1971, page D37, reports: Among the items listed to go on the block are 1200 lots from the finest collection of Chinese coins - the collection of Eduard Kann, a banker who lived in China for 47 years. During his long numismatic career, Mr. Kann compiled the Catalog of Chinese Coins which was published in 1954.*

## TERMS OF SALE

**1. Auction Basics.** This is a public auction sale conducted by California bonded auctioneers, Stephen Album Rare Coins Inc. (hereinafter referred to as "Auctioneer"). Bidding in this Auction constitutes acceptance by you (the "Bidder") of all the Terms of Sale stated herein. Bidders may include consignors who may bid and purchase lots in the Auction consigned by the consignor or by other consignors pursuant to their consignment agreement. The Auctioneer reserves the right to include in any auction sale its own material. Bidder acknowledges and agrees that the Auctioneer may not be required to pay a Buyer's Premium, or other charges that other Bidders may be required to pay and may have access to information concerning the lots that is not otherwise available to the public. Any claimed conflict of interest or claimed competitive advantage resulting there from is expressly waived by all participants in the Auction. Lots may carry a Reserve. A Reserve is a confidential price or bid below which the Auctioneer will not sell an item or will re-purchase on behalf of the Consignor or for Stephen Album Rare Coins Inc. The Buyer is the Bidder who makes the highest bid accepted by the Auctioneer, and includes the principal of any Bidder acting as an agent.

**2. Descriptions and Grading.** Grading of rare coins is subjective and may differ among independent grading services and among numismatists, even though grading has a material effect on the value of the coins. Stephen Album Rare Coins Inc. is not responsible for the grades assigned by independent grading services, and makes no warranty or representation regarding such grades. Bidder further acknowledges and agrees that grades assigned by Stephen Album Rare Coins Inc. and lot descriptions are based solely upon an examination of the coins and are intended to note any perceived characteristics. Stephen Album Rare Coins Inc. does not warrant the accuracy of such grading or descriptions. All photographs in this catalog are of the actual items being sold but may not be the actual size or to scale.

**3. The Bidding Process.** The Auctioneer shall have the right to open or accept the bidding on any lot by placing a bid on behalf of the Consignor or their agent, a Bidder by mail, telephone, internet or fax, or any other participant in the Auction. Bids must be for an entire lot and each lot constitutes a separate sale. No lot will be broken up unless otherwise permitted by the Auctioneer. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise. All material shall be sold in separate lots to the highest Bidder as determined by the Auctioneer. Auctioneer shall have the right in his or her sole and absolute discretion to accept or decline any bid, challenge any bid or bidding increment, to reduce any mail bid received, adjudicate all bidding disputes and to determine the prevailing bid. The Auctioneer shall have the right, but not the obligation, to rescind the acceptance of any bid and place the lot(s) for Auction again. Auctioneer's decision on all bidding disputes shall be binding and final. For the mail and internet Bidder's protection, no "unlimited" or "buy" bids will be accepted. When identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder and Telephone Bidder must bid higher than the highest mail bid to be awarded any lot. Bids will not be accepted from persons under eighteen (18) years of age without a parent's written consent which acknowledges the Terms of Sale herein and agrees to be bound thereby on behalf of the underage Bidder. The auction sale is complete when the Auctioneer so announces it.

Bids may be placed by fax, mail, email, or by telephone. Telephone bidding is restricted to lots valued at or above \$500 due do shortage of operators available. Online bidding is also available on [www.iCollector.com](http://www.iCollector.com). Follow the link on our website, [www.stevealbum.com](http://www.stevealbum.com) in order to bid online.

Stephen Album Rare Coins Inc. is not responsible for any errors in bidding. All Bidders should make certain to bid on the correct lot and that the bid is the bid intended. Once the hammer has fallen and the Auctioneer has announced the Buyer, the Buyer is unconditionally bound to pay for the lot, even if the Buyer made a mistake. Stephen Album Rare Coins Inc. reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Buyer has taken physical possession of the lot. No participant in the Auction shall have a right to claim any damages, including consequential damages if a lot is withdrawn, even if the withdrawal occurs after the Auction.

**4. Buyer's Premiums and Payments.** A Buyer's Premium of nineteen and one-half percent (19.5%) will be added to the hammer price for each lot to all successful bids. Accepted payments are by Visa, MasterCard, American Express, PayPal, cash, cashier's check, money order, approved personal check or bank wire transfer. If the purchaser pays by "cash equivalent" then the buyer's premium will be discounted to seventeen and one-half percent (17.5%). "Cash equivalent" is defined as paying by cash, cashier's check, money order, approved personal check or bank wire transfer. A reacquisition charge may apply to Consignors pursuant to a separate agreement, which may be higher or lower than the Buyer's Premium. Payment is delinquent and in default if not received in full, in good funds, within fourteen (14) calendar days of the Auction (the "Default Date"), without exception, time being of the essence, unless otherwise agreed in writing prior to the Auction. All auction sales are payable strictly in immediately available good U.S. funds, through a bank in the United States. Personal checks must clear our bank before lots are delivered.

Please contact Stephen Album Rare Coins Inc. for wiring instructions. Please inform us after bank wire has been sent. Please be advised that payments coming by wire transfer usually only take a few days to arrive, but in rare cases they can take up to a few weeks to arrive due to US government regulating, resulting in a delay of shipment of your lots. Lots will not be shipped until your full payment has arrived in our bank account. There is a \$30 fee for all bank wire transfers.

Stephen Album Rare Coins Inc. reserves the right not to release lots for which funds have not yet been received in full. On any past due accounts, Stephen Album Rare Coins Inc. reserves the right, without notice, to extend credit and impose carrying charges of 1% per month. Buyers agree to pay reasonable attorney's fees and cost incurred to collect past due accounts. Buyers personally and unconditionally guarantee payment in full of all amounts owed to Stephen Album Rare Coins Inc. Any person submitting bids on behalf of a corporation or other entity, by making such bid, agrees to be personally liable for the payment of the purchase price and any related charges and the performance of all Buyer obligations under these Terms of Sale and Stephen Album Rare Coins Inc. reserves the right to require a written guarantee of such payments and obligations.

**5. Credit.** Bidders who have not established credit with Stephen Album Rare Coins Inc. must furnish satisfactory credit references and/or deposit at least twenty-five percent (25%) of their total bids for that Auction session(s) or such other amount as Stephen Album Rare Coins Inc. may, in its sole and absolute discretion, require before any bids from such Bidder will be accepted. Deposits submitted will be applied to purchases. Any remaining deposits will be promptly refunded, upon clearance of funds.

**6. Shipping and Insurance.** It is the Buyer's responsibility to contact Stephen Album Rare Coins Inc. after the sale to make shipping and packaging arrangements. Due to the fragile nature of some lots, Stephen Album Rare Coins Inc. may elect not to assume responsibility for shipping or packing, or may charge

additional shipping and handling. All state taxes, postage, shipping, handling, insurance costs, the Buyer's Premium, and any other fees required by law to be charged or collected will be added to the invoice for any lots invoiced to Buyer. Title and risk of loss pass to the Buyer at the destination upon tender of delivery. Acceptance of delivery constitutes acceptance of the purchased lots. Inspection of the purchased lots is not required for acceptance. Any and all claims based upon Buyer's failure to receive a purchased lot, Buyer's receipt of a lot in damaged condition, or otherwise related to delivery, must be received in writing by Stephen Album Rare Coins Inc. no later than thirty (30) days after payment. The failure to make a timely claim, time being of the essence, shall constitute a waiver of any such claim.

Delivery outside the USA will be by USPS registered mail or by FedEx and will include insurance on all shipments up to \$20,000. Buyers will be billed additional insurance charges on a shipment or combined shipments valued at above \$20,000. Any claims of loss or damage will only be paid by Stephen Album Rare Coins Inc. only after the insurers' investigation is complete. If the Buyer opts for another form of shipment other than the above, items will be shipped at their risk and they will assume all risk due to theft, damage or loss. A Buyer opt out of the Stephen Album Rare Coins Inc. standard shipping listed above must be in received in writing before shipment will be made.

Stephen Album Rare Coins Inc. cannot accept any responsibility whatsoever for customs duties charged by the country of destination or seizure of items by customs, domestic or foreign.

Buyers will be charged all applicable sales tax, including Buyers who pick up at this Auction or shipments to Buyers in California without a valid Resale Certificate which has been provided to the Auctioneer. Please note that the purchase of any coin or bullion lot(s) with a price, including the Buyer's Premium, in excess of One Thousand Five Hundred Dollars (\$1,500) are exempt from California sales tax. expenses incurred. Buyer shall also be liable to Stephen Album Rare Coins Inc. for any deficiency if the proceeds of such sale or sales are insufficient to cover such amounts.

Buyer grants to Stephen Album Rare Coins Inc., or assignees, the right to offset any sums due, or fund to be due to Stephen Album Rare Coins Inc., and to make such offset from any past, current, or future consignment, or purchases that are in the possession or control of the Auctioneer or from any sums due to Buyer by Stephen Album Rare Coins Inc., its affiliates and assignees. In addition, defaulting Buyers will be deemed to have granted to Stephen Album Rare Coins Inc., or its assignees, a security interest in: (x) the purchased lots and their proceeds, and (y) such sums or other items and their proceeds, in the possession of Stephen Album Rare Coins Inc., its affiliates or assignees, to secure all indebtedness due to Stephen Album Rare Coins Inc., plus all accrued expenses, carrying charges, attorney fees, and costs, until the indebtedness is paid in full. Buyer grants Stephen Album Rare Coins Inc. the right to file a UCC-1 financing statement for such items, and to assign such interest to any affiliated or related company or any third party deemed appropriate by Stephen Album Rare Coins Inc. In the event this interest rate exceeds the interest permitted by law, the same shall be adjusted to the maximum rate permitted by law, and any amount paid in excess thereof shall be allocated to principal. Buyer agrees to pay all reasonable attorney's fees, court costs and other collection costs incurred by Stephen Album Rare Coins Inc. or any affiliated or related company to collect past due invoices or to interpret or enforce the terms hereof or in any action or proceeding arising out of or related to the Auction. Stephen Album Rare Coins Inc. reserves the right to assign its interest to any third party.
