2259. **TIBET:** AR tangka dkarpo sa rpa (3.71g), ND (1953-54), Y-31, Second Monk issue, EF-AU *, ex Don Erickson Collection* $75 - 100

Formerly it was assumed that these tangkas were distributed to monks on behalf of the 14th Dalai Lama in the late 1940s. The Tibetans referred to this Tangka as Tangka dkarpo sa rpa ("new white tangka") in order to distinguish it from the normal gaden tangkas. This coin circulated for some time at the value of 5 srang which shows the high inflation rate which was prevailing in Tibet in the 20th Century. In the 19th Century 6½ tangkas were equivalent to 1 srang which corresponded to slightly more than 37 grams of silver. Taking the circulating value of this "Monk" tangka as a base, 1 srang was equal to about 33½ tangkas in 1953-54.

In older editions of the Krause Standard Catalog of World Coins, this coin was listed as a regular issue (as Y-32), but it is now believed that it is a pattern coin struck between 1928 and 1930 in the Dode mint with the imported coining presses from the British firm Taylor & Challen. This is an absolutely fantastic example of this rare Tibetan pattern silver type. This is the finest graded by either NGC or PCGS!
