GROUP LOTS

Starter Lots: Nice coins, representative of the series, intended for novice or dealer. Retail of each lot about \$160-180 for average grade coins, \$140-160 for higher grade coins, no duplicates, no junk, all coins identified in envelopes (unless otherwise requested). *You may specify any area, grade range, etc., and we will try our best to fill your needs.* These lots are especially tailored for collectors who want a general representation of a series they are just starting to collect, allowing them to obtain some of the more common coins at a discounted price. This month's specials:

Alexander has learned well how to put together these lots, so there should be no interruptions in their delivery while I am back at Oxford, for three months beginning on the first of May 2000.

Want Lists: I accept want lists and keep them on file for 6 months, longer if you so request. I deem it important to work closely with my customers, and Alexander or I will listen to all reasonable requests.

Attribution Service: The charge is \$2 per coin for basic identification, \$5 per coin for full cataloguing. However, I will identify up to five coins for each customer at no charge (except postage & insurance). This exemption is for collectors only, not for dealers. On all shipments, you pay postage & insurance and assume risk in transit. Turnaround time one to three weeks, though during my absence at Oxford, some coins may have to wait until my return for processing. It is best to contact Alexander first before sending coins.

Discount Schedule: Remaining coins from lists 155-157 are now available at 10% discount, except bullion-related items. Serious counteroffers for old stock will also be considered.

Returns: Please return coins in their original envelopes, without folding them or writing on them (except to correct my mistakes), so I can return them to stock without writing up new ones. Thanks! And please, no staples or tape, if at all possible.

Show schedule: I will be attending the second Dubai auction on 28-29 March. Then I'll be at the Chicago International Coin Fair at the Ramada O'Hare, Rosemont IL, 7-9 April.

Invoice number: Please be sure to mention the invoice number with all returns and payments, to assure proper credit and facilitate matters for us. Nobody enjoys paperwork.

COMMENTARY (17 February 2000) — With this list, I am resuming the eight-page format I used prior to going off to Oxford for the first time in 1996. Even though it entails somewhat more typing, the larger list format is actually somewhat easier for me to work with. The main difference is about half an hour more organizing the material and about 90 minutes more typing and proofreading.

If you are interested in coins and meeting other collectors through mail and email, you should consider joining Numismatics International. Annual membership is \$15 for most of us, \$10 for those 18 years and younger or over 70. Sponsorship is unnecessary, you can just send in your check and enroll. Correspondence should be sent to Numismatics International, P.O. Box 670013, Dallax TX 75367-0013. Benefits include the monthly *Bulletin* with informative articles, book reviews, collector wants. Very much collector-oriented. And short articles are **always** wanted for the *Bulletin*.

Here are several useful websites. For Christian/Muslim calendar conversion, try <www.assirat.org/Hcal/>

For the Oriental Numismatic Society, including application to join, visit <www.onsumis.org>

For the publication of the Islamic Coins Egroup, called *al-Sikka*, try <www.fortunecity.com/victorian/verona/946/>

How often have you wanted to convert one currency to another at the latest rate? Just visit the Universal Currency Converter at <www.xe.net/ucc>, where rates are updated every minute or two. This is useful for those who need to know how many of their currency units are needed to pay my invoices!

For one helluva lot of information about Islamic studies, including access to free downloads, lots of info on fonts with diacriticals, use of Arabic on computer and in email, etc. (mainly Mac, a little for Windows), try the following Norwegian site at the University of Bergen (95% in English)—it's a long one:

<www.hf.uib.no/institutter/smi/indexA.html>

They have (under indexT, but you can access it from indexA), a free download of Taqwim, a useful program for converting Christian and Muslim calendars.
