Burma

1299. **PEGU:** LOT of 10 uniface lead/tin coins, many types, various types of the hintha (mythical bird), including the large thick size (4), middle size (1), middle size with ornate tail (1), small size with circle of 13 dots (1, choice EF); feathery hintha (1), and very small size (2); average circulated grades, unless noted, interesting group, some quite rare, all with consignor's identification; retail value $450, **lot of 10 pieces** $240 - 300

1300. **TENASSERIM-PEGU: Anonymous**, 17th-18th century, large tin coin, cast (40.02g), Robinson—, 63mm, stylized image of the "dragon on sea", minimal "head" and "tail", pedestal below // 3-line Burmese legend, unpublished variety, generally as Robinson-Plate 10.2/10.4, except that there is a pedestal instead of waves represented by pellets beneath the dragon, several natural casting flaws, superb bold strike, AU**, RRR** $200 - 260

1301. **TENASSERIM-PEGU: Anonymous**, 17th-18th century, large tin coin, cast (86.39g), Robinson—, 73mm, knotted dragon right with long protruding pointed tongue, 6-point rosette below with horizontal center, pellets along his neck // different 3-line Burmese legend, still undeciphered (except the bottom line, which is *361 ma*), unpublished & extremely rare, superb bold casting, EF-AU**, RRR** $350 - 500

Differs from Robinson Plate 9.1 by the rosette and the previously unknown Burmese legend. The examples of this new type are the heaviest group thus far reported, weighing 77g to 86g. The meaning of "361" remains mysterious, as it does not fit with any of the Burmese calendars then in use. This is the fifth known example, the other 4 all appeared in our Auction 35, Lots 1860-1863.

1302. **TENASSERIM-PEGU: Anonymous**, 17th-18th century, large tin coin, cast (48.60g), Robinson-Plate 10.2/10.4, 66mm. stylized image of the "dragon on sea", minimal "head" and "tail", with the waves portrayed as dots (10 in three lines) // 3-line Burmese legend, slightly weak around the centers, one tiny natural casting flaw near the edge, EF $100 - 150

Although this is a relatively available Tenasserim large coin, it comes in a bewildering variation of the quantity and arrangement of the dots representing the ocean waves.

1303. **TENASSERIM-PEGU: Anonymous**, 17th-18th century, large tin coin, cast (61.80g), Robinson-18 (Plate 10.1), 69mm, mythical hintha bird facing right, Burmese legend around, which means "city of great happiness" // knotted dragon above the sea, amazingly bold, fabulous example! EF-AU**, RRR** $600 - 800

Two examples of this extremely rare type appeared in our previous auctions (Auction 33, Lot 1001 & Auction 35, Lot 1868), both from the same mold, but this piece is from another mold. This piece has one minuscule natural casting flaw near the rim, barely noticeable.

1304. **TENASSERIM-PEGU: Anonymous**, 17th-18th century, large tin coin, cast (40.72g), Robinson—, 68mm. mythical hintha bird facing left, with tail rising above and holding a 3-leaf branch in its beak, 11 pellets below the beak & 14 pellets beneath the tail // stylized Burmese text, based on Robinson text B1, but with square Burmese letters, cross-like symbol below the text, bold example, EF-AU**, RRR** $240 - 350

There were 4 examples of this previously unpublished type in our Auctions 33, 35, and 37.

1305. **BURMA:** AR ingot (145.29g), Opitz-pg. 379-380, silver "willow leaf money" or *yowetni*, cast circa 1600-1800s in the Shan States, a heavy example! VF *, ex Charles Opitz Collection* $100 - 150

1306. **BURMA:** AR ingot (68.48g), Opitz-pg. 379-380, silver "willow leaf money" or *yowetni*, cast circa 1600-1800s in the Shan States, a lovely example, VF *, ex Charles Opitz Collection* $100 - 150

1307. **BURMA:** LOT of 3 silver "western tok" ingots, all with hole as made for hanging (4.06g, 7.47g, 12.86g), types as Mitchiner-2806/9, average quality examples, retail value $200, **lot of 3 ingots**, *ex Charles Opitz Collection* $100 - 150

1308. **CAMBODIA:** AR medal (48.91g), 1901, 47mm, French Indochina Agricultural and Industrial Competition silver medal by Vernon, laureate bust of the Republic facing left, signature F. VERNON below // CONCOURS AGRICOLE ET INDUSTRIEL DU CAMBODGE / 1901, wreath made of branches of oak and laurel, awarded to MONSIEUR / LUCE / RÉSIDENT / SUPÉRIEUR, hand engraved to right, ARGENT 950/1000 on edge, EF**, RR** $500 - 600

1309. **CAMBODIA: Sisowath**, 1904-1927, AR medal (16.91g), 1905, Lecompte-127, 34mm unsigned silver medal for the King's Mother Préa Voréachini, temple with "S.M. Japan

1384. **JAPAN:** AV kin kwan (23.73g), Opitz page-280; Munro page-5, 30mm, "gold ring money" gilt copper ring; a lovely example with around half of the original gilding intact, VF , *ex Charles Opitz Collection* $200 - 300

1385. **JAPAN:** AV kin kwan (10.54g), Opitz page-280; Munro page-5, 25mm, "gold ring money" gilt copper ring; a lovely example with most of the original gilding intact, VF , *ex Charles Opitz Collection* $150 - 250

1386. **JAPAN:** AV kin kwan (8.72g), Opitz page-280; Munro page-5, 20mm, "gold ring money" gilt copper ring; the gilt appears somewhat thin in places, allowing for verdigris to envelop approximately eighty percent of the surface, VF , *ex Charles Opitz Collection* $125 - 175

1387. **JAPAN:** AV kin kwan (5.95g), Opitz page-280; Munro page-5, 19mm, "gold ring money" gilt copper ring; with partial original gilding intact (mostly on the interior), Fine , *ex Charles Opitz Collection* $100 - 150

Various forms of ring money were used in Eastern Asia, including Japan, for at least 2,500 years; usually made of hollow copper with a thin layer of gold (kin) or silver (gin) applied to the outside surfaces; an intriguing piece which is sure to delight the advanced collector of Japanese numismatics or primitive money.

1388. **JAPAN: Kofun Period**, circa 300-538 AD, LOT of 2 Japanese magatamas of different shapes and colors measuring 26mm and 36mm, a nice little group of these rarely offered items, retail value $300, **lot of 2 items**, *ex Charles Opitz Collection* $100 - 200

1389. **JAPAN: Kofun Period**, circa 300-538 AD, LOT of 6 Japanese magatamas of various sizes and colors measuring 54mm (ex Money Museum of the National Bank of Detroit), 41mm, 36mm, 24mm, 23mm, and 17mm, a wonderful group of these rarely offered items, retail value $1000, **lot of 6 items**, *ex Charles Opitz Collection* $600 - 800

Magatamas are gem-stone carvings, resembling the claw of a tiger or similar animal. These were valuable trade items, but perhaps not used as currency. However, magatamas are included in most money museums.

1390. **JAPAN: Azuchi-Momoyama Period**, AR mon (2.81g), Osaka mint, H-3.25, JNDA-125.7, *ei raku tsu ho*, struck in silver circa 1580-90,**, RR**, *ex Dr. Axel Wahlstedt Collection* $200 - 300

From 1587 Japan started exporting goods to China and received Chinese copper-alloy cash coins in return for payment; around this time the Japanese stopped minting their own coins and started relying heavily on Chinese cash coins, as the internal demand for copper coinage increased. The Eiraku Tsuho coin in Japan is known as a toraisen ("Tang money" or "Chinese money"), and other cash coins with Ming dynasty era inscriptions also started circulating in Japan. As the imports of Chinese cash coins didn't fulfill the demand, many Japanese mints started casting reproductions of these toraisen, which were known as shichusen, and shichusen of inferior quality were known as bitasen or money made from bad metal. These coins with Ming dynasty inscriptions remained in circulation in Japan until they were officially prohibited by the Tokugawa shogunate in 1608. Eiraku Tsuho type coins struck in silver are quite rare.

1391. **JAPAN: Tokugawa**, 1603-1868, AE mon (3.54g), Mito mint, year 3 (1626), H-4.1, JNDA-1, *Ko Kanei Tsuho* type, with *san* below on reverse, Fine**, R**, *ex Dr. Axel Wahlstedt Collection* $100 - 150

The Bunkyu Era only spanned three years, and fell during the reign of Emperor Komei. He was the last Japanese Emperor who had more than one era name (nengo) during a single ruling term. In total he reigned during seven era names from 1846 to 1867. The Emperor's family included six children, but the future Emperor Meiji was the only one to survive childhood.

1409. **JAPAN: Keio**, 1865-1868, lead 200 mon (129.54g), Yonezawa, Dewa Province, H-6.37, *atai ni hyaku* (value two hundred) // *sanju shi momme* (thirty-four momme), VF**, RR**,
ex Dr. Axel Wahlstedt Collection $300 - 500

These lead coins were minted in Yonezawa in Dewa Province, probably around 1866. At this time, the Samurai class found their occupation gone, and in many cases were in great distress. A society was formed under local government supervision to give them aid, and these coins were issued to them.

1410. **JAPAN: Keio**, 1865-1868, AE 50 mon (10.04g), Hosogaya mint in Mito, Hitachi Province, H-7.4, JNDA-139.4, type known as a Mito Tora-sen (Mito Tiger Coin), cast in bronze, a lovely example!
EF *, ex Dr. Axel Wahlstedt Collection* $200 - 330

Legend in seal script translates as "Enrich the Country and Strengthen the Military." Cast at the Hosogaya Mito, Hitachi Province (present day Ibaraki-ken). The original cast in 1864 in iron was a local emergency coin used to pay the workmen at the financially troubled copper-coin mint in Mito. In 1867 copper-alloy was cast supposedly from bronze cannon which the daimyo (local feudal lord) had made out of temple bells with which to repel the western barbarians.

Because of chronic shortages of Ottoman coins in general and low denominations in particular, the inhabitants of the fledgling agricultural settlement of Zichron Jacob (established in 1882) decided in 1885 to issue their own coinage, exclusively for local use, without the consent of the Ottoman authorities. The tokens were privately struck in Paris, France. Less than one year later, early in 1886, the Ottomans declared the use of these coins illegal, whereupon most of the Zichron Jacob tokens were collected, confiscated, and destroyed.

1526. **THAI KINGDOMS:** AR tok chiangmai (65.84g), Opitz-pg. 354, Krisadaolarn/Mihailovs-pg. 65, silver Chiangmai "Oyster" Tok coinage cast in the 17th-18th centuries by the Lanna Kingdom, VF *, ex Charles Opitz Collection* $100 - 150

The Chiang Mai Tok was usually found with a blackened top while the underside was yellowish brown caused by the chemical reaction of the silver alloy supposedly by mixing with egg yolk or chicken blood during the casting process.

1527. **THAI KINGDOMS:** AR shell money (93.81g), cast to approximate 37 massa or 3½ Spanish reales in value; this example is a de-acquisition from the Money Museum of the National Bank of Detroit, a very large example*, ex Charles Opitz Collection* $150 - 250

This example is the plate coin in "An Ethnographic Study of Traditional Money: A Definition of Money and Descriptions of Traditional Money" by Opitz.

1528. **THAI KINGDOMS:** LOT of 8 silver tok type coins including AR chiangmai "oyster" tok coinage of 15.44g, 16.56g, 16.77g, 18.90g, 31.29g, and 32.26g, and nan tok types of 67.20g, 61.59g, a nice group of these popular, usual quality examples, retail value $350, **lot of 8 items**, *ex Charles Opitz Collection* $150 - 250

The Chiang Mai Tok was usually found with a blackened top while the underside was yellowish brown caused by the chemical reaction of the silver alloy supposedly by mixing with egg yolk or chicken blood during the casting process.

1529. **THAI KINGDOMS:** Mitch-2803/5, Opitz-pg. 354, Krisadaolarn/Mihailovs-pg. 65,Plate B01, LOT of 6 Tok Nan coins cast in the 17th-18th centuries by the Lanna Kingdom, all with a single piercing except one; weights are 54.79g, 64.84g, 68.62g, 64.94g, 71.91g, and 71.35g; average quality examples, retail value $300, **lot of 6 items**, *ex Charles Opitz Collection* $200 - 300

Commonly known as a Tok of Nan, these were made for a long time during the 17th to 19th centuries. They are silver, and while the exact alloy is not known, there is a good silvery appearance where the oxidation is rubbed through, so there is a relatively high silver content. The dark color on one side, and golden red color on the other side, are due to oxidation that occurred then they were cast. There is a common story that the golden color comes from an egg being broken into the mold prior to casting, but we do not believe there is any truth in that.

1530. **THAILAND: PATALUNG:** tin 400 bia (½ fuang) (9.82g), ND (late 19th century), Pridmore-222, *ju jin gong si* written in barbarous Chinese // *patalung* in Thai script and unclear Chinese inscription, but likely *wang lang*, some obverse scratches, F-VF**, R**, *ex Charles Opitz Collection* $100 - 150

The word "bia " means conch shell, and one bia was valued at 800 per Thai fuang, which in turn was valued at eight fuang per baht. At the time 5 baht was exchanged for 3 Mexican dollars, thus 80 of these coins equaled one Mexican dollar.

1531. **THAILAND: SINGGORA:** tin bia (13.57g), ND (late 19th century), Prid-207, in Chinese *sung ch'eng tung pao* (Singgora currency) // *negri singgura* in Jawi and *song khla* in Thai, fine calligraphic style, a superb example for type! VF $100 - 150

This type was first published in 1871 by Millies and was likely cast for a number of years creating a great number of varieties.

The Battle of Fraustadt was fought between Sweden and Saxony-Poland and their Russian allies near Fraustadt (now Wschowa) in Poland. During the Battle of Fraustadt on February 3, King August II was only 120 km away, with a cavalry force about 8,000 men strong. That was one of the main reasons that Swedish General Count Carl Gustav Rehnskiöld hurried to engage Marshal Johann Matthias Reichsgraf von der Schulenburg at the head of the Saxon arny. The battle is an example of a successful pincer movement and was one of Sweden's greatest victories in the Great Northern War.

The Nuestra Señora de la Luz went down in a storm with the loss of all hands while at anchor off the coast of Montevideo, on the estuary of the River Plate (Rio de la Plata) in 1752. The wreck was located in April of 1992 and divers working under Rubén Collado began to recover gold coins from the wrecksite. This find was remarkable because of the large quantity, and beautiful condition of the gold 8 and 4 Escudos coins which were salvaged. Most of the coins had been minted at the newly created New World mint at Santiago de Chile. Approximately 800 coins dated 1751 were salvaged, and 100-150 dated 1750. Along with the Santiago gold, a small number of Lima and Bogota 8 and 4 Escudos, as well as Lima and Potosi silver cobs, were also salvaged. The Government of Uruguay, which had ownership of the treasure, commissioned the auction house of Sotheby's to sell the coins, ingots and other objects in 1993.

1886. **CHILE: Republic**, AR peso, 1875/4-So, KM-142.1, very scarce overdate, lustrous, NGC graded MS63**, S** $700 - 900

1908. **GUATEMALA: Republic**, AR 8 reales (18.16g), ND (1839), Type II countermark on cut-down (roughly 34x27mm) DM Peru 8 reales assayer JP (KM-117.1), coin is cut down to a rectangular shape with rounded corners with a tab at the top that is holed to wear as a medallion, interesting piece! Choice VF on Fine host $700 - 900

It is uncertain if this piece was cut down before or after the countermark was applied. After an extensive search, we have been unable to find any evidence of an official Guatemala countermark on another Spanish Colonial portrait coin of any denomination. We have seen cobs with a similar shape as this made into medallions. Certainly an enigmatic piece deserving of more research.

1909. **GUATEMALA: Republic**, AR 4 reales, 1893, KM-150, assayer RG, large letters, cleaned, PCGS graded AU details $270 - 320

1910. **HAITI: Republic**, AV 250 gourdes (75.95g), 1970, KM-75, 10th Anniversary of Revolution - King Henri Christophe, struck at the Italcambio mint in Italy, NGC graded Proof 68 UC $2,600 - 2,800

1919. **MEXICO: Fernando VII**, 1808-1821, AR 8 reales, 1816-Mo, KM-111, assayer JJ, attractive luster with champagne-colored toning, NGC graded AU58 $200 - 250

1920. **MEXICO: Fernando VII**, 1808-1821, AR 8 reales, Zacatecas, 1811, KM-190, Cal-676, Calb-1760, War of Independence Royalist issue, 19 pearls variety, tooled, PCGS graded VF details $400 - 600

Below the mountains are the initials L.V.O., which stands for "Labor Vincit Omnia" or "work conquers all", the city motto for Zacatecas.

1921. **MEXICO: Fernando VII**, 1808-1821, AR 2 reales, ND, cf. KM-193.2 (KM-186 host), L.C.M. (La Comandancia Militar) countermark on 1811 Zacatecas 2 reales (KM-187), bold countermark on weakly struck host (NGC says the host is worn out, but we believe much "wear" is a weak strike), NGC graded Fair2 with VF standard countermark**, R** $275 - 375

1922. **MEXICO: Insurgent Countermarked Coinage**, AR 2 reales, 1809-Mo, cf. KM-257.2 (type B countermark), Type A (bow and arrow, quiver, sword) Chilpanzingo countermark (somewhat weak) on cast 1809-MoTH Mexico 2 reales, unlisted type in KM, EF on Fine host**, R** $300 - 400

These underweight pieces were made at several provisional mints and validated with a countermark to ensure their acceptance. This is an very unusual early host date for this type.

1924. **MEXICO: Republic**, AV ½ escudo, 1860/59-Mo, KM-378.5, assayer initials FH, extremely sharp strike on mirror-like fields, a few faint hairlines on obverse, NGC graded MS62 $200 - 250

1925. **MEXICO: Revolutionary Issue**, AE 5 centavos, 1914, KM-612, GB-30, Chihuahua issue, rare one-year type, with characteristic large reverse die crack, NGC graded AU53 BN**, R** $120 - 170

In the 1960's, Utberg estimated only about 18 pieces of this to be known. There have since been more examples discovered, but it is still a rare issue, as the die failed early in production.

1926. **MEXICO: Revolutionary Issue**, AE 10 centavos, Morelos, ND (1915), KM-698, GB-272, crude strike on cast flan, EF $220 - 300

1927. **MEXICO: Estados Unidos**, AE centavo, 1915, KM-415, the larger type (non-Zapata), better date, mostly brown with hints of red, AU $130 - 170
